School of Entrepreneurship

## ICON

Renowned agriculturalist, social entrepreneur, and advocate for persons with disabilities, Dr Billy Tang, founder & CEO of PwD Smart FarmAbility, overcame personal challenges after a car accident left him paralyzed from the waist down. Despite this, he earned a Doctorate in Agriculture and Food Security from Wilmington Metropolitan University (WMU), USA, in February 2024, adding to his previous honorary degrees in Business Administration and Social Entrepreneurship. Passionate about healthy living and community empowerment, Dr Billy champions decentralized food systems, receiving accolades for his contributions. His innovative solutions, accredited by KUSKOP & MaGIC, aim to empower the poorest through agri-innovation. Engaging globally, he's spoken at FAO's Global Symposium on Soil Biodiversity and the World Bank's Agricultural Transformation forum, while also mentoring on urban farming and collaborating on Planetary Health initiatives with Yale-NUS College. Billy's groundbreaking projects include 'My Carbon Farm,' a regenerative organic vegetable terrarium, and the world's first Aquaponics Satellite Farm for organic soil solutions. His collaboration with Vera Bella Enterprises introduces downstream organic produce, enriching products like Daerrys Tilapia Ice Cream with higher protein content. With a family and a legacy of transformative impact, Dr. Billy Tang embodies resilience and innovation in agriculture and social entrepreneurship.
